Hirsch page 37. Lipsius page 118. (John Lee's) copy, with his signature and acquisition date (1829) on the front pastedown. Later ex libris Burdary Library (withdrawn). *Numismata* was the first major history of English medals written in English. "Evelyn's curiosity was unquenchable, and he was already an old man when he began in 1692 to collect notes for a work on medals. He had found that little had been written on the subject in English and, animated by a considerable regard for portraits and portraiture, sought in his *Numismata* to remedy this defect." (Keynes). The result was a handsome folio with excellent engravings of medals, although there are numerous textual errors and misprints.

Seven parts complete, with the specially printed title given above, 15 page index and two related works, all bound in two matching volumes. Approximately 628 pages. Quarto. Contemporary brown half roan, contrasting spine labels, gilt. Fine. 375.00
A most important work, from the library of Edward Burstall with his bookplate in each volume. The present set is notable for several reasons:

- 1) It is a presentation copy inscribed by Helen Farquhar on the general title page (signature a trifle crooked).
- 2) It includes not only all seven parts of the Portraiture but also two further and closely related papers from the BNJ, namely: *Portraiture of the Stuarts on the Royalist badges (1646)*, and *Some portrait-medals struck between 1745 and 1752 for Prince Charles Edward*.
- 3) Also included are five signed autograph letters from Helen Farquhar to "Dear Dr. Williamson" (a total of 18 pages). The letters all refer to her work on Stuart medallie and portrait history and in particular to a badge given by Charles II to Richard Penderel.

Clain-Stefanelli 14115*. Crierison page 256. Comprehensive and indispensable, this enduring work provides valuable information on coin and medal engravers and their work from ancient to modern times. Printed on high acid content paper and bound in half leather that is often now fragile, the original edition is usable only with great care. The 1970 Burt Franklin reprint suffers from an incorrectly selected and collated initial volume. This edition, printed on supple paper and substantially bound, represents one of those rare occasions where a reprint is actually preferable to the original work.

144 [Forrer, L.]. Martin, J. S. Compiler. BIOGRAPHICAL DICTIONARY OF MEDALLISTS BY L. FORRER. INDEX. London, 1987. viii, 312 pages. Blue cloth, gilt. As new. 75.00
An indispensable subject index to Forrer's work, which is arranged by engraver. As Andrew Burnett notes in the preface, the *Biographical Dictionary* is "in effect, a corpus which lists and attributes almost every medal made before the beginning of this century." Joan Martin's index, published posthumously and the result of ten years of diligent work, adds greatly to the utility of Forrer's magnum opus.

Newell's hand laid in, 1922 signed letter to Newell from Louis Ciani regarding coin finds laid in. 275.00

Original half leather, spine gilt and lettered, joints worn, a few collector's manuscript annotations, occasional spotting. Very good, with excellent impressions of the plates. 200.00
The first edition in book form and the first complete edition. Fort first published his *Neuste Münzkunde* as a series of twenty serialized parts with 60 plates in 1851 and 1852. The plates were done by a lithographic process by J. G. Bach of Leipzig.

COMBROUSE/MONNAIES DES CARLOVINGIENS/ MANUSCRIT. 2 blank leaves, title leaf, 8 blank non-integral leaves, (iii)-vi, iv, (iii)-vi, (7)-58 pages, 23 lithographic plates of coins, 4 lithographic plate maps with colored outlines, hundreds of engraved coin illustrations cut to size and pasted on 48 pages bound in with a number of blank leaves at the end. A few of these coin illustrations are hand-drawn and there are a number of handwritten identifications and other brief notes in ink. Quarto: 30 x 23 cm. Superbly bound in contemporary dark blue straight-grained full morocco, sides intricately panelled in gilt with gilt floral decorations at the corners, flat spine with a gilt border and gilt decorations at the head and base, lettered in the center with intricate gilt floral decorations above and below, gilt inner dentelles, marbled endsheets, expertly rebacked with the original spine laid-on, some discoloration of the blank and mounted leaves at the end. A fine, most attractive copy. 1,000.00
Engel et Serrrie 2601 (calling for only 38 pages of text). A major advance at the time, completely replacing that portion of Le Blanc's pioneering work. It was, in turn, largely superseded by the works of Gariel and Lafaurie *Tire seulement 100 exemplaires*. Boldly signed by Combrouse on the verso of the second flyleaf. The unusual pagination at the beginning comprises three different versions of the forward. Presumably Combrouse's personal copy, augmented with hundreds of added coin illustrations and handwritten notes. Unique.

Clain-Stefanelli 13630 (1865 edition). Sigler 1294 (1864 edition). The extremely rare first issue of what came to be known, in subsequent editions, as the *Bank Note Safeguard*. The Hodges family were publishers of a prominent New York bank note reporter, along with several other similar publications, from the mid-1850's to the mid-1860's. According to Dilistin, this important work was pirated from John Dye's 1855 *Bank Note Plate Delinuator*. The 1856 issue offered here, however, was unknown to Dilistin who considered Hodges' 1857 *Safeguard* to be the first edition issued by the firm. While no credit is given Dye for his major innovation, publication rights may well have been legally secured since this 1856 first edition, and the 1857 edition for that matter, appear to have been printed from the identical plates used for Dye's 1855 work. Subsequent editions were enlarged and revised by brothers John Tyler and Daniel Milton Hodges and, in 1862 the work was taken over by Daniel's son Edward. It remained in his hands until the final edition of 1865. All of the various editions are rare, but the first edition offered here appears to be virtually unknown.

Ornately printed, diminutive! Lyman H. Low label affixed to the front pastedown along with the ex libris of the Sydney Stanley fund, Watkinson Library, Trinity College, Hartford (accessioned 1931, with subsequent "WATKINSON" stamp). It would appear that this volume comprises Low's own set of his early fixed price lists. The 1885 *Catalogue of United States and American Colonial Coins* is heavily annotated and revised throughout in Low's hand, presumably with the intention of issuing a new catalogue. Included are several fixed price lists not in Bourne or Adams. The series is complicated by the fact that some of these early fixed price catalogues were included by Low in his numbered series of early auction sale catalogues (Gengerke cites numbers 1, 2, 3, 4, 6 & 10; all present here) although the coins, medals and books in all of those described above were "offered for sale at the prices affixed" or "for sale at fixed prices." The above descriptions are ordered according to binding sequence though it would appear that several of the later numbers are not in order of publication, i.e., item 7 appears to have been issued after item 9 and item 8 was apparently published before item 6. Given the ephemeral nature of many of these publications and the high acid content of the paper on which several were printed, it is possible that this is the only "complete" set of early Lyman Low fixed price lists extant.

234 [Mader]. NUMISMATISCHE ARBEIT VON MADER. (Pencil title in a nineteenth century hand). No place or date (circa 1800). Ink manuscript. 86 leaves, mostly written closely on both sides, key words underlined in red ink, interleaved. Quarto: 251 x 208 mm. Contemporary brown cloth-backed boards. 650.00
The unique notebook of a German or Austrian numismatist, containing numerous entries on subjects concerning coins and coinage, arranged alphabetically, in German. Presumably handwritten by Joseph von Mader (1754-1815), author of major works on medieval coins published between 1797 and 1813. Von Mader was Professor of Statistics at Prague, his numismatic studies being an avocation. The alphabetical arrangement of the manuscript suggests that these were substantial working notes for an interleaved lexicon. Mader's coin collection and his books were all sold in 1818. The catalogue of his library did not include any manuscripts, however, and no mention of this notebook has been located elsewhere. [The preceding description is derived from Seaby (Rare Books) Ltd. Catalogue 4, Spring 1981, item 109, where it was listed at £500.]

325 Sharpe, Archibishop (John). ARCHBISHOP SHARPE'S OBSERVATIONS ON THE COINAGE OF ENGLAND, WITH HIS LETTER TO MR. THORESBY, 1698/9. London: Bibliotheca Topographica Britannica, N° XXXV. Printed by and for J. Nichols, Printer to the Society of Antiquaries, 1785. viii, 88 pages, 1 engraved plate depicting both sides of seven coins in the collection of Matthew Duane, 2 tables in the text, additional folding table bound in at the end, numbered page 89, entitled "Gold and Silver coined for each Reign, from July 20, 1650, to June 24, 1754 inclusive..." Quarto. Recent dark green leather-backed boards. Fine. 375.00

"John Sharpe" (1645-1714), archbishop of York, had prepared and left in manuscript these substantial notes on the coins of England, Scotland and Ireland. Although they were not published during his lifetime, they were undoubtedly used as source material by William Nicholson in the relevant chapters of his *Historical Libraries*. It was also of great use to Sharpe's friend, the antiquary Ralph Thoresby, as well as to succeeding writers including Stephen Martin Leake. The manuscript, which Sharpe had left to Thoresby, was purchased by Cough in 1764 at the sale of Thoresby's museum. Sharpe's work on the coinage is thus noteworthy as a forerunner (it was originally written before 1695) with such writers as Lowndes, Fleetwood, Leake and Folkes. Rudng has praised it as the first systematic treatise ever composed on the subject." (John Drury Catalogue Fifteen) Rarely offered.

338 Taylor, (Dr.) B. F., Coiner. ORIGINAL HOLOGRAPH LETTER TO L. P. HILL ESQR., SIGNED BY THE CHIEF COINER OF THE CONFEDERATE STATES OF AMERICA, STATING THAT ONLY FOUR 1861 CONFEDERATE HALF DOLLARS WERE ORIGINALLY STRUCK AND CONFIRMING THE AUTHENTICITY OF A SPECIMEN SUBMITTED TO HIM. New Orleans, 25th May, 1903. Single ruled sheet: 205 x 145 mm. Four fold-marks, a little browned and a trifle frayed at edges. Very good. 2,850.00 The text of this remarkable letter follows: "The Confederate coin of 1861 submitted to me for examination, is undoubtedly genuine. The execution is very perfect, which could not be done on any common Press, the pressure required being at least Ten-T[he]lour for its perfectness. I was Coiner of the Mint at the time, and only four pieces were struck, only one of which, after many years, could be located. Very Truly, [signed] B. F. Taylor." L. P. Hill is not mentioned in Breen's pedigree chains but of course he may have owned the specimen submitted by him. The story of these historic four coins is well told in Breen's 1977 *Encyclopedia of U. S. and Colonial Proof Coins*, and his 1988 *Complete Encyclopedia of U. S. and Colonial Coins* provides much of the same information along with additional data. A good overview may also be found in Yeoman's *Guide Book of United States Coins*. Briefly, Taylor fled with the original die and one of the four coins when Union forces captured New Orleans. According to Breen (*Complete Encyclopedia*), "Dr Taylor as Chief Coiner, retained the rev. die and one of the four proofs, but maintained secrecy for over a decade after the war, lest he be prosecuted for treason in having supervised manufacture of the rebel coins. He broke the story in the *New Orleans Picayune*, April 9, 1879, publishing correspondence between himself and the Hon. Marcus J. Wright, of the Adjutant General's Office. The coin dealer Ebenezer Locke Mason, Jr. promptly contacted Dr. Taylor and bought the coin and die, reselling both to J. W. Scott." Taylor's specimen, a choice toned proof and the finest of the four, was eventually sold by Scott to J. Sanford Saltus, who presented it to the American Numismatic Society, in whose collection it now resides. The other three specimens are in the cabinets of John J. Ford, Jr., Eric P. Newman and a "fvt. coll." A unique document of great historical importance.

(2), iii, 481, (1); (2), 364, xv, 32 pages, fine frontispiece portrait, with a number of engraved plates interspersed in the text depicting medals, orders and decorations, etc., numerous autograph facsimiles and other text figures. Original matching blindstamped brown cloth, gilt, bindings a little worn and discolored. Very good set. 250.00 Son of a buckle manufacturer, Thomason was apprenticed to Messrs. Bolton and Co., of Soho, at age sixteen. Taking over the family business in 1793 he soon "added a department for the making of medals, tokens, and coins, of gold, silver, bronzed, &c." His inventions were numerous, including everything from "machinery, worked by a small steam engine and all fixed in a fire-ship, to steer herself into the enemy's harbours... (and set fire to the enemy's fleet)" to "the sliding toasting fork...common now in all the shops." In 1832 he was knighted by William IV, largely in appreciation for his 1830 production of sixty large silver medals depicting biblical scenes. Sets of his "Medallie Bible" were presented to all the principal rulers of Europe and many such honors were accorded him. Base metal sets were also issued along with many other numismatic productions. The *Memoirs* are particularly valuable as a record and source of information on these numerous numismatic endeavors and, also, comprise virtually the only source of information in *The Dictionary of National Biography* listing of Thomason.
